Annotatsiya. Koreys tilini o'rganayotgan o'zbek talabalarining ortib borishi tufayli koreys tili ta'limida shaxs olmoshlari bo'yicha tadqiqotlar ham zarur. Ammo shuni aytish mumkinki, hozirgi kunga kelib, ikki til o'rtasidagi shaxs olmoshlarining qarama-qarshiligi bo'yicha kam tadqiqot olib borilgan. Xususan, o'rganuvchilarning til sohasi bo'yicha tadqiqotlar juda kam. Chet tilini o'rganishda ona tilining til xususiyatlari ta'sir qilishi tabiiy. Shu sababli, o'rganuvchining o'ziga xos til odatlarini bilish uchun koreys tilini o'rganuvchining ona tili bilan solishtirish juda muhimdir. Ko'pgina universitetlarning koreys tili darsliklarini ko'rsangiz, ular grammatika qismini tushuntiradi, lekin ular maxsus qo'llanilgan lug'atni yetarli darajada tushuntirilmaydi. Ushbu maqola koreys tilidagi barcha shaxs olmoshlarini qamrab olmaydi, faqat koreys va o'zbek tillarida boshlang'ich va o'rta darajalarda tez-tez o'rganiladigan birinchi shaxs olmoshlari, ikkinchi shaxs olmoshlari va uchinchi shaxs olmoshlari ko'rib chiqildi. Bundan tashqari, so'rovnomalar orqali shaxs olmoshlarini to'g'ri qo'llash orqali ravon muloqot qilish imkonini beradigan ta'lim usullarini taklif etishni maqsad qilindi.

Kalit so'zlar. Olmosh, so'rovnoma, koreys tili, o'zbek tili, grammatika

Annotation. Due to the increasing number of Uzbek students learning Korean, it is also necessary to conduct research on personal pronouns in teaching Korean. However, it can be said that to date, there have been few studies on the contrast of personal pronouns in the two languages. In particular, there are very few studies on the language sphere of students. Naturally, the linguistic characteristics of the native language affect the learning of a foreign language. Therefore, it is very
